INTRODUCTION

The Division of Health Care Finance and Policy (the Division) uses Forms HCF-1, HCF-2-NH and HCF-3 as the basis for computing per diem rates of payment for Nursing Facilities that care for publicly-aided patients. In addition, the Division uses this data for informational purposes to support public policy initiatives. It is extremely important that these reports are prepared by persons who are familiar with regulation 114.2 CMR 6.00 Standard Payments to Nursing Facilities. Copies of this regulation may be downloaded from the Division's website at www.mass.gov/dhcfp. The HCF-1 should be filed electronically for the calendar year 2009.

General Instructions:

Where to file:

Login to DHCFP-INET, the Web-based transaction service of the Division of Health Care Finance and Policy, at www.mass.gov/dhcfpinet to file the cost report electronically. To register for DHCFP-INET, the provider must complete and sign a Data Reporting Agreement on behalf of the entity, and each individual who will be filing data for the organization must complete a User Agreement.

Who Must File:

All Nursing Facilities that provide care to publicly-aided patients must file form HCF-1. If a provider closed on or before November 30, the provider is not required to file.

What Form to File:

Nursing facilities (nursing homes) file an HCF-1 cost report.

Real Property Rent Expense must be reported on a HCF-2-NH cost report.

Management Fees are reported on an HCF-3 cost report.

Resident Care Facilities (rest homes) file an HCF-4 cost report.

Nursing Facilities that received a Pediatric or Special Contract rate during the reporting year are required to file an HCF-1 Pediatric and Special Contract Supplemental Form (PSCSF).

Note: The HCF-1 is filed electronically. The PSCSF must be emailed as an attachment to patty.mccusker@state.ma.us. Paper copies of the HCF-2-NH, HCF-3 and HCF-4 must be filed.

When to File:

Form HCF-1, HCF-2-NH and HCF-3 are calendar year cost reports, except for Hospital Based Nursing Facilities. The reports for 2009 are due on April 1, 2010. Reports not received by April 1, 2010 will be subject to sanctions per 114.2 CMR 6.08. Hospital Based Nursing Facilities must file no later than 90 days after the close of the hospital's fiscal year.

In extenuating circumstances, providers may seek an extension of time for submission of the reports. Such extensions will only be granted to providers who request them, in writing, thirty (30) days prior to the due date per 114.2 CMR 6.00. The request must demonstrate the extenuating circumstances that prevent the provider from meeting the deadline. All requests for extensions must be made by the provider and not by an agent or other representative.

In no case will extensions be granted for more than thirty (30) days past April 1. All requests for extensions should clearly state the full provider name and the vendor payment number. In the

case of HCF-2-NH extensions, the vendor payment number and the full name of the realty company must be included.

Additional Information:

For assistance in completing these forms, contact the Help Desk at (800) 609-7232 between 9 am and 5 pm.

GENERAL INFORMATION

Forms HCF-1, HCF-2-NH and HCF-3 must be completed on the accrual basis. These reports are essentially balance sheets and income statements that must accurately reflect the complete financial condition of the facility, realty trust, management company or other reporting entity. It is essential that each report reflect the entire financial statement of the reporting entity (partial reporting is not acceptable). There is a minor exception to this requirement. Certain timing differences between the books of the provider and the claim for payment requirements may occur which could result in modest variances between the report and the provider's books. When this occurs, Schedule 12, Reconciliation of Reported Income and Financials, should identify the variances and explanations should be provided.

In addition to being a complete financial statement, these forms also constitute a claim for payment. On form HCF-1, the conversion from a financial statement to a claim for payment begins with entering the total expenses, and subtracting the non-allowable expenses. The report also provides a vehicle to claim allowable fixed costs and costs that were generated through the entities that report on the forms HCF-2-NH (realty company) and HCF-3 (management company).

Only **WHOLE DOLLARS** should be entered and rounding off of cents should be done carefully to ensure that all totals balance precisely. **MATHEMATICAL ERRORS will cause problems with balancing this report and may delay the ability to submit your report timely.**

Footnotes that reveal special information are not only permissible but are required whenever the cost report says "Explain." Please put all comments, explanations and addendum on Schedule 20, Footnotes and Explanations.

REALTY COMPANIES:

If the operating company incurs rent expense or if a value is reported on the HCF-1 in Real Property Rent Expense, account (4535.8), a Realty Company Report, Form HCF-2-NH must also be filed. Real property rent expense will be disallowed but the allowable costs of the realty company will be added to the payment rate. The HCF-2-NH is required whether or not the realty company is owned by a related party.

Whenever rent is paid to or expenses or allowances are claimed by a realty company that owns more than one property, an HCF-2-NH form which reports all of the financial activity and condition of that entity should be filed. **In addition, subsidiary form HCF-2-NH's should be filed for each facility and clearly marked "HCF-2-NHA", "HCF-2-NHB". etc.** Each subsidiary HCF-2-NH should also clearly indicate the name, address and provider number of the nursing facility or rest home which it represents, as well as, if applicable, the identification of other properties for which no claims are being made.

For example, if a realty trust owns a nursing facility in Athol, a resident care facility in Orange and apartments in Greenfield, a total of four (4) form HCF-2-NHs must be filed. One form will report the financial condition of the entire entity and be clearly marked, "See also HCF-2-NHA, HCF-2-NHB, and HCF-2-NHC". The HCF-2-NHA should report that portion of the entity relating to the nursing facility, the HCF-2-NHB should report that portion of the entity relating to the resident care facility and the HCF-2-NHC should report the remainder of the activities and be marked "Other Non-Claimed Realty Report". The subsidiary reports must total to and be consistent with the overall realty report. The subsidiary HCF-2-NH values should be entered on Schedules 21 - 24.

MANAGEMENT COMPANIES:

A management fee is the cost related to a second party overseeing the ongoing operation of all or part of the facility. Whenever management fees are incurred, a Management and/or Central Office Report, Form HCF-3, must be filed. The actual management fees should be reported in account 4160.3. In the event that more than one management company or central office provides services to the facility, additional HCF-3's must be filed, e.g. HCF-3A, B, etc. The amount will be disallowed but the allowable costs of the management company as allocated over the managed entities will be added to the claimed expenses through the HCF-3 add-back accounts (9960.3, 9961.3, 9962.3, 9967.0, 9969.0 and 9968.0). **Form HCF-3 should reflect all of the costs of the management company and should not be reported as net costs after adjustments.** If expenses of the management company have been reported directly on the HCF-1, this should be disclosed in the Footnotes and Explanations section on both the HCF-1 and the HCF-3. The cost report related question on Schedule 1, Question #6, on page 4 and on the HCF-3, page 5, should be answered affirmatively.

Management Consulting (4160.6) is the cost of a specific identifiable project or task done by an outside vendor. An HCF-3 is not needed if **only** management consulting services are provided.

NON-NURSING FACILITY ACTIVITY AND TRANSACTIONS:

Those facilities that provide Adult Day Care must file the Adult Day health report with the Division via DHCFP-INET. The amount reported on the HCF-1, account 8040.0 must match the total amount reported on the Adult Day Report. Schedule 5, Depreciation Expenses, on the HCF-1 should **not** include any fixed costs associated with the Adult Day portion of the facility. All activity and transactions related to Adult Day Care, Hospital Expenses - Non-Nursing Facilities, Outpatient Services, Assisted Living or Other Non-Nursing Facilities should be identified and reported on Schedule 6, in accounts 8040.0, 8045.0, 8046.0, 8060.0, and 8065.0 respectively. These accounts have been established to collect all of the relevant non-nursing facility costs, including fixed costs. Any asset addition, unless specifically identified and recorded as contributing only to one cost center, will be treated as shared by all activities. Specific identifications of assets or other costs must be explained and documented.

DETERMINATION OF NEED:

If the facility received a letter of final approval of a Determination of Need, please send a copy of the letter outlining the approved maximum capital expenditures to the Rating Group, Division of Health Care Finance and Policy, 2 Boylston Street, Boston, MA 02116. A detailed analysis reconciling the Determination of Need letter to the claim on Schedule 5, Claimed Fixed Costs, is required. This analysis should be provided in the Footnotes and Explanations section.

COST SPLITTING:

Any cost that is split across two or more accounts on the cost report(s) must be supported by adequate documentation. Each account affected by such cost splitting must be identified and the cost splitting fully explained in the Footnotes and Explanation section of the cost report.

EXPENSE SCHEDULES

Expenses are grouped by expense cost categories such as Nursing Expenses (Sch. 2), A & G Expenses (Sch. 3), Variable Expenses (Sch. 4), Fixed Costs (Sch. 5) and Non-Nursing Home Expenses (Sch. 6). A summary and reconciliation of these expenses is on Schedule 7.

- Column 1, Reported Expenses, should be used to report your actual expenses per your financial statements.

- Column 2, Non-allowable Expenses and Add-backs, should be used to self disallow expenses that are not allowable under 114.2 CMR 6.00 and to add-back HCF-2-NH and HCF-3 expenses. This column is a negative column.
- Column 3, Total Allowable Expenses, is column 1, Reported Expenses, minus column 2, Non-allowable Expenses and Add-backs. Providers do not need to enter a negative sign to disallow expenses. Add-backs are considered negative disallowances and therefore will increase Allowable Expenses. Add-back accounts should be reported in column 2 and are bracketed so the provider does not need to enter a negative sign.

Expenses that are not allowable per regulation 114.2 CMR 6.00 will automatically be disallowed by the system. The descriptions of these expenses have an asterisk at the end of the description.

Claimed HCF-1 Fixed Costs, is the difference between the Reported Depreciation or Expense (from financials) and Non-Allowable Expenses and Add-backs columns.

The last column is the Claimed HCF-2-NH Fixed Costs. These values should be entered from Schedule 4 of the HCF-2-NH. The HCF-2-NH is still required to be filed by paper. Rent – Real Property (4535.8) will be automatically disallowed.

You will not be allowed to enter data in accounts 4520.8 and 3196.0. The amount in account 4520.8, Interest Long-Terms is automatically populated from Schedule 19. The amount in Recoverable Fixed Income (3196.0) is automatically populated from Schedule 8, Income Schedule.

If you report an amount in Account 4538.8, you must provide a detailed description in footnotes and explanations, Schedule 20.

The allowable basis is seldom the same as actual cost; carefully review the provisions of 114.2 CMR 6.00. The starting point of this schedule should be your ending allowable basis from the previous year and prior period rate calculations. Be sure to reflect the additions and deletions previously reported. The building depreciation % should be adjusted to the rate reflected on previous rates and may be greater than 2.5%.

The Total HCF-1 and HCF-2-NH Fixed Expenses from accounts (9950.1) and (9950.2) should be posted to Schedule 7.

6. Non-Nursing Expenses

All the expenses in this schedule are non-allowable. Enter the actual expense from the financials in the Reported Expense column. The system will automatically disallow the expense.

15. Detail of Purchased Service Nursing

This schedule requires providers to report the details of expenses relating to the services of Temporary Nursing Agencies. A facility may not claim expenses for services provided by a temporary nursing agency that is not registered with the Department of Public Health at the time the service was provided.

To enter expenses provided by an agency registered with the Department of Public Health, click the "Add Registered RN, LPN or Nurses Aide" buttons and select the agency name from the drop down list.

If the agency does not appear in the drop down or you wish to self disallow any nursing purchased service expense, enter the expense using the "Add Unregistered RN LPN or Nurses Aide/Other Non-Allowable" buttons. Charges related to unregistered temporary nursing agencies and other non-allowable expenses will be automatically disallowed in the "Non-allowable Expenses and Add-backs" column. Expenses related to per diem staff must not be included on Schedule 15. A new section has been added for DON Purchased Services.

If the name of a registered nursing agency does not appear on the drop down, please call the Help Desk at (800) 609-7232.

The sum of the Total Charges columns will automatically populate the Schedule 2, Nursing Expenses, under DON Purchased Service Temporary Agency Staff (6025.2), RN Purchased Service Temporary Agency Staff (6035.2), LPN Purchased Service Temporary Agency Staff (6042.2) and Nurses' Aide Purchased Service Temporary Agency Staff (6052.2).
